ABOUT ME

I build REST APIs and operational software for recruitment, document management, and hospitality. Based in Bangladesh and open to relocation to Germany and remote opportunities.

WORK EXPERIENCE

June 2026 - Present

Mid Level Python Developer

TalentBridge | Remote, Germany

• Build Django REST endpoints and integration contracts for a multi-stage recruitment platform.

• Improve API documentation, reliability checks, and deployment workflows while preserving private business rules.

• Validate representative permitted and rejected requests across organizational access boundaries.

September 2023 - June 2024

Backend Developer

Wege LLC | Ajman, UAE

• Developed backend features for business workflows with Django and relational data models.

• Maintained server-side validation and access boundaries across application features.

April 2022 - January 2023

Django Developer

Meektec IT | Cumilla, Bangladesh

• Implemented Django web features and database-backed workflows from product requirements.

• Supported debugging, maintenance, and incremental delivery across the application.

December 2021 - March 2022

Web Developer

Research Rider | Dhaka, Bangladesh

• Built and maintained web application features with server-rendered templates and backend data flows.

• Translated content and workflow requirements into maintainable application changes.

DIGITAL SKILLS

Python / Django / Django REST Framework / REST APIs / JWT authentication / PostgreSQL / SQLite / Django ORM / HTML / CSS / JavaScript / Git / GitHub

PROJECTS

TalentBridge - Recruitment platform

Django REST backend for recruitment workflows.

Django REST Framework / Relational persistence / Asynchronous processing / Documented API contracts

Ilmora — Madrasha Management - Education management

Bilingual React frontend for admissions, attendance, fees and madrasha administration.

React 19, TypeScript, React Router 7 and Vite / TanStack Query and Zod with a typed service boundary / Academic-session records in browser storage; uploads in IndexedDB / Vitest and Playwright verification tooling

Smart Document Vault - Document management SaaS

Multi-tenant document-management API with secure isolation.

Django REST Framework / Tenant-aware authorization / Asynchronous security processing / Documented API contracts

HotelMotel - Hotel operations

Django API foundation for hotel operations.

Django REST API / Modular domain boundaries / Server-side authorization / Automated behavior checks

Portfolio Website - Personal site

Django portfolio site for projects, experience, and contact.

Django class-based views / Database-backed content / Contact form persistence

TheProperty - Real estate marketplace

Role-aware Django property marketplace.

Django and PostgreSQL / Controlled publication / Protected private capabilities / Auditable administration

Homeopathic Management API - Clinic management

Role-aware Django API for clinic operations.

Django REST Framework / Authenticated API access / Sensitive-domain boundaries / Documented API contracts

LANGUAGE SKILLS

English: beginner (self-described; CEFR level not assessed)

German: no proficiency yet
